PROFESSIONAL EXPERIENCE

Senior Full Stack Developer | PT Qualysoft Centre Excellence | Sep 2023 – Sep 2024

- Developed new full-stack features for Cortex, a government-scale tax platform, using .NET Core, Angular, TypeScript, REST API, Tibero, Docker, and microservices architecture.
- Handled analysis, implementation, validation logic, pre-QA testing, and cross-team front-end support within a multi-team Scrum environment.

Senior .NET Developer | The Software Practice Pte. Ltd. | Sep 2022 – Sep 2023

- Developed modules for a healthcare administrative information system using .NET Core, REST API, Azure, SQL Server, GitHub, and microservices-based practices.
- Worked remotely in Scrum-based cross-country teams, coordinating with business analysts, testers, developers, and founder-level stakeholders.

System Analyst & Senior Programmer | Bina Nusantara University | Jan 2021 – Jan 2023

- Led development and enhancement of the Enrichment Management System, covering registration, program selection, logbook, reporting, and multi-role validation workflows.
- Combined hands-on development and system analysis by coordinating with users, guiding developers, handling tickets, and improving delivery processes using .NET Core, MVC, Web API, JavaScript, SQL Server, and PHP.

Junior C# Programmer | PT Sakura System Solution | Feb 2020 – Jan 2021

- Developed and enhanced Spicy10 ERP/HRIS modules for client-specific needs, including customization, bug fixing, and feature enhancement using ASP.NET MVC, JavaScript, SQL Server, GitHub, and API integration.
- Delivered an organization-structure module with Excel export and position-mapping logic, adapting quickly with no formal onboarding in a high-pressure project environment.

IT Developer | PT Quadrant Sinergy International — RDS Group | Jan 2019 – Feb 2020

- Developed automated document-generation and data-processing applications for banking and insurance clients, including BCA, BNI, China Life, and Sequis, using C# Windows Forms, SQL Server, and HP/OpenText Exstream.
- Independently handled around 15 client projects and built a scheduled sanity-check mechanism to process FTP/cloud input data, generate print-ready PDFs, log failed records, and notify clients after processing.

Selected Freelance Engagement | Automotive Enterprise Client | 4 months, 2025 – 2026

- Developed web modules for automotive promotional, service event, and operational workflows using .NET Core, HTML, JavaScript, and SQL Server.
